

Raffles International College

Directive No.RF 004/2023

Preventive Measures to Mitigate the Effects of PM2.5
on Raffles Students, Lecturers, and Staff

.....

Dear RIC Family,

We've recently received reports regarding higher-than-average air pollution levels in the area.

We're fortunate to still have no Covid-19 cases in our community. However, bearing in mind safety and prevention as our first priority, we do recommend that all students and staff wear face masks at all times while at the college and avoid outdoor activities until air quality improves.

(Mr. Panupong Pituksung)
College Director
